

TABLE OF CONTENTS

	<u>Page</u>
Introduction by General Chairman J. Vaccaro, Air Force, Rome Air Development Center	
SESSION I - PHYSICAL RELIABILITY Moderator - S. Schwartz, NASA	
Failure Mechanisms and Device Reliability . . . . .	J. S. Smith J. Vaccaro 1
Mathematical Modeling for Component Part Failure Rates . . . . .	C. M. Ryerson 10
Effective Screening of Integrated Circuits . . . . .	E. F. Thomas, Jr. 16
The Impact of the Flight Specifications on Semi-Conductor Failure Rates . . . . .	Jayne Partridge L. David Hanley 20
SESSION II - SEMICONDUCTORS AND SURFACE EFFECTS I Moderator - G. L. Schnable, Philco-Ford Corporation	
Burst Noise and Walkout in Degraded Silicon Devices . . . . .	John F. Schenck 31
Phosphosilicate Glass Passivation Against Sodium Impurity in Thermal Oxide on Silicon . . . . .	W. W. Smith, Jr. A. B. Kuper 40 ✓
SESSION III - SEMICONDUCTORS AND SURFACE EFFECTS II Moderator - G. L. Schnable, Philco-Ford Corporation	
Surface Effects on p-n Junctions . . . . .	A. S. Grove 46 ✓
Degradation Phenomena of Planar Si Devices Due to Surface and Bulk Effects . . . . .	B. Kurz 47 ✓
Creation of Interface States by Avalanche Effect . . . . .	E. H. Nicollian A. Goetzberger 66 ✓
The Effect of Cleanliness on Integrated Circuit Reliability . . . . .	D. L. Cannon O. D. Trapp 68 ✓
SESSION IV - SEMICONDUCTORS AND SURFACE EFFECTS III Moderator - A. Goetzberger, Bell Telephone Laboratories	
In-Process Control of Structural Defects In Semi-Conductor Manufacturing . . . . .	G. H. Schwuttke 80
Junction Seal Development for the Beam-Lead Sealed-Junction Technology . . . . .	A. A. Bergh G. H. Schneer 95

	<u>Page</u>
Silicon Nitride Passivated Integrated Circuits - Reliability Improvements . . . . .	O. D. Trapp 96
Thermal Evaluations of Diffused-Junction Semi-Conductors . . . . .	R. A. Delaney 106
Thermophysics of Reliability Screening . . . . .	H. R. Plumlee D. A. Peterman 108
Exposing and Analyzing P-N Junction Defects . . . . .	T. P. Morton 114
 SESSION V - FLASH PAPERS - RECENT RESULTS	
Moderator - G. T. Jacobi, IIT Research Institute	
Control of Stacking Faults Produced by Oxidation of Silicon Substrates . . . . .	D. Pomerantz 120
Failure Analysis Using A Scanning Electron Microscope . . . . .	Robert J. Anstead 127
A Failure Mechanism of Semiconductor Devices and Its Analysis . . . . .	Ethan J. Goldberg John W. Adolphsen 138
Critical Remarks on the Use of Stereoscan Electron Microscopes for the Investigation of the Electrical Parameters of Semiconductor Surfaces . . . . .	C. A. Bosselaar 142
Direct Transmission Electron Microscope Observation of Electrotransport in Aluminum Thin Films (Film Presentation) . . . . .	I. A. Blech E. S. Meieran 147
Mass Transport of Aluminum by Momentum Exchange With Conducting Electrons . . . . .	James R. Black 148
Extending the Life of Chromium Silver Metallization on Silicon Devices . . . . .	E. C. Ross J. T. Wallmark 160
Causal Basis for System Failure Rate Calculations . . . . .	R. G. Stewart 166
 SESSION VI - METALLIZATION AND CONTACTS	
Moderator - H. Rosenberg, ARINC	
Metallization and Bonds - A Review of Failure Mechanisms . . . . .	George L. Schnable Ralph S. Keen 170
Electron Microprobe Techniques for Failure Analysis of Silicon Planar Devices . . . . .	James E. Cline Seymour Schwartz 193
Failure Mechanisms in Integrated Circuit Interconnect Systems . . . . .	Bernard Selikson 201
Degradation of Evaporated Aluminium Contacts on Silicon Planar Transistors . . . . .	C. B. Oliver 209

	<u>Page</u>
Mechanisms of Contact Failure in Semiconductor Devices . . . . .	Ralph S. Keen Leroy R. Loewenstern George L. Schnable 216
 SESSION VII - PASSIVE DEVICES	
Moderator - J. Vaccaro, Air Force, Rome Air Development Center	
Fuses for Space Flight Applications . . . . .	Samuel J. Keene, Jr. 234
Factors Affecting the Reliability of Wet Tantalum Capacitors . . . . .	W. M. Rowe P. H. Eisenberg 243
Determination of Current Capacity of Small Dimension Wires and Bars . . . . .	John G. Fullerton 256
Concerning the Physics of Failure of Barium Titanate Capacitors . . . . .	David A. Payne 257
