

Instructions for Poster Presentations

The poster session plays a vital role by providing an informal and direct means of discussing and presenting your work. A poster display space of 48" × 48" will be reserved for you. Generally, your work should be in Landscape format on 8½ × 11" or A4 paper with a maximum of twenty-four pages and should follow IRPS presentation format.

The use of large-format printers is also encouraged so that all your visuals can be shown on just one or two large sheets attached to the display board. In this case, explicitly following IRPS presentation format is not expected, but following certain IRPS recommendations, such as font size for text and graphics, text and graphic color, etc., will make it more visible to your audience.

You will need to prepare your poster in the designated location before the poster session on Wednesday so they will be ready for the Arrangements Committee to arrange them for the Poster Session to be held **Wednesday night April 20**. Specific instructions regarding the poster session set-up will be provided to you as the Symposium approaches.

Your reviewer is your primary point of contact with the symposium, but please do not hesitate to contact me if I can be of assistance.

Sincerely,

Chris Connor
2016 IRPS Arrangements Chair
